PROFESSIONAL SUMMARY

Competitive Programmer and CSE Graduate with experiences of Participating **13 Onsite Programming Contest** to represent the university, have trained university juniors in **Problem-Solving Sessions** for more than two years, Volunteered as a **Mentor** of the Course “**Data Structures and Algorithms**” and currently in the responsibility of the **Manager** of the **Programming Club** of IUBAT IT Society, Department of CSE, IUBAT - International University of Business Agriculture and Technology.

ALMA MATER

- | | | |
|----|---|--|
| 1. | IUBAT - International University of Business Agriculture and Technology
Bachelor of Science in Computer Science and Engineering | CGPA: 3.90
Apr 2022 - Jan 2026 |
| 2. | Gazipur Metropolitan College (EIN: 135793)
Science with Higher Mathematics Major | GPA: 5.00*
Passing Year: 2020 |
| 3. | Sharifpur Dakhil Madrasah (EIN: 109955)
Science with Higher Mathematics Major | GPA: 5.00
Passing Year: 2017 |

ONSITE PROGRAMMING CONTEST PARTICIPATION

- | | |
|---|-----------------|
| • 62nd in ICPC Dhaka Regional Site 2025 (ICPC Dhaka Regional Onsite) | December, 2025 |
| • 97th in ICPC 2025 Preliminary among 2100+ teams | November, 2025 |
| • 35th in CUET Inter University Programming Contest 2025 | November, 2025 |
| • 39th in Inter University Programming Contest - MU CSE Fest 2025 | November, 2025 |
| • 68th in Uttara University Inter-University Programming Contest 2025 | June, 2025 |
| • 4th in Battle of Intellects - Spring 2025 - IUBAT (Intra-University Programming Contest) | May, 2025 |
| • 46th in Betopia Group Presents DUET Inter University Programming Contest 2025 | May, 2025 |
| • 113th in MIAKI Presents KUET IUPC 2025 | January, 2025 |
| • 64th in ICPC Asia Dhaka Regional Contest 2024 (ICPC Dhaka Regional Onsite) | December, 2024 |
| • 52nd in BUET CSE Fest Inter-University Programming Contest 2024 | November, 2024 |
| • 29th in IUT 11th National ICT Fest IUPC 2024 | April, 2024 |
| • 136th in NCPC - National Collegiate Programming Contest 2023 (Hosted by JU) | March, 2024 |
| • 7th in UAP Inter-University Collaborative Programming Contest 1.0 (Junior) | January, 2024 |
| • 2nd in IUBAT Monthly Programming Contest (Intra-University Programming Contest) | September, 2023 |
| • 19th in Collaborative Programming Contest (IUBAT) | July, 2023 |
| • 19th in Good Bye 2022 - IUBAT Standings (Intra-University Programming Contest) | November, 2022 |

EXTRA-CURRICULAR ACTIVITIES

- **Manager of the Programming Club**, IUBAT IT Society, Dept. of CSE, IUBAT June, 2025 - Present
- **Problem Setter** of IUBAT Monthly Programming Contest - July 2025 July, 2025
- **Trainer**, Intermediate Problem-Solving Session, Programming Club, IUBAT IT Society 2024 - 2025
- **Trainer**, Beginner Problem Solving Session, Programming Club, IUBAT IT Society 2023 - 2024
- **Mentor**, CSC 391 - Data Structures & Algorithms, Academic Wing, IUBAT IT Society Fall, 2023

SKILLS AND AREA

- **Programming Languages** C, C++, C#, Java, Python, JavaScript
- **Environments and Tools** Windows & Linux, Git, GitHub, JIRA, Jupyter, MySQL, Latex
- **Frameworks** ASP .NET Core MVC, REST API, Bootstrap, Tailwind
- **Expertise** Data Structures and Algorithms, Problem-Solving, Mathematics, OOP
- **Language Proficiency** Fluent in English and Bengali
- **Basic Concept** Unity, Unreal Engine, CI/CD

OTHER TRAINING AND CERTIFICATION

- **Programming Languages:** Python with Machine Learning Nov 2024 - May 2025

MAJOR PROJECTS

1. CodeKoro [An Online Code Judging System]

[GitHub](#)

Engineered a system to meet the requirements of the assignment of the course “Software Engineering” that will have problems to solve and judge the code solutions. The system provides platform to create programming problems, contests and environment to solve the problems, participate contests and judges the solutions.

Development Stack: ASP .NET MVC Core

2. Linear Algebra 3x3 System Solver [A Program to Implement the Logics of Linear Algebra]

[GitHub](#)

Coded the concept of solving a system of linear equations containing 3 variables that will take the system as input and calculate the values of the variables or determine the consistency of the system of linear equations.

Implementation: C++

3. Diabetic Retinopathy Classification [A Deep Learning Approach to Determine the Severity of Diabetic Retinopathy from Fundus Images]

[GitHub](#)

Preprocessed medical images (fundus images) and used Densenet121 to train a model that can 96% accurately classify diabetic retinopathy from fundus images with implementing the concepts of OOP to make the change of dataset or parameters convenient.

Language, Tools and Libraries: Python, Jupyter Notebook, Kaggle, Densenet121, NumPy, Pandas, TensorFlow, Matplotlib, Scikit-Learn

4. SpotLight [An Event Management System to Facilitate Organizers to Manage Events]

[GitHub](#)

Developed a system for the course “Visual Programming” following the concepts of MVC architecture. The system contains functionalities of Event Organizers and Participants to Create, Manage and Book Events digitally with authentication and role-based activities.

Development Stack: C#, ASP .NET, HTML, CSS

5. Library Management System [A System to Manage the works of a library]

[GitHub](#)

Designed a system to meet the requirements of the course “System Analysis and Design” applying its principles which offers the functionalities of librarians with options of admin activities.

Development Stack: HTML, CSS, PHP
